TAX DISCLAIMER

This material is not intended or written to be used, and it cannot be used, by any taxpayer for the purpose of avoiding tax penalties that may be imposed on the taxpayer. This material may be used to support the promotion or marketing of the matter discussed herein. The taxpayer should seek advice from an independent tax advisor regarding the matter set forth herein based on the taxpayer's particular circumstances.

What is a Mortgage Credit Certificate?

A mortgage credit certificate ("MCC") was designed to assist persons of low and moderate income to better afford their own home. The procedures for issuing MCCs were established as an alternative to the issuance of single family mortgage revenue bonds. As distinguished from a bond program, in a MCC program the mortgagor may take a tax credit in an amount equal to the annual amount of interest paid on the mortgage loan multiplied by the Mortgage Credit Certificate Rate. Currently, to maximize the benefit to the MCC applicants, the Mortgage Credit Certificate Rate for the Program is 20%, there is no annual maximum tax credit cap.

As an example, an Applicant with a \$349,000, 30 year, fixed rate mortgage (monthly payment has equal monthly installments of principal and interest) and a 7.125% interest rate could realize the following federal income tax savings (numbers are rounded):

Example of Buyer Benefit (20% Tax Credit)

- 7.125%, 30-year fixed rate mortgage
- \$349,000 mortgage loan amount
- 20% Tax Credit Rate with no annual maximum tax credit cap
- \$22,685 mortgage interest paid in first year
- Multiply MCC Credit Rate of 20% (.20) x Mortgage Interest Paid (\$22,685) = \$4,537
 - \$4,537 is the maximum potential tax credit
- Borrower has \$5,500 in tax liability (because the tax liability is more than \$4,537 in potential tax credit, the borrower can use the entire amount of the tax credit.
 - Of the \$22,685 mortgage interest paid apply as follows on the tax return:
 - \$4,537 may be applied as a Tax Credit (this is a dollar for dollar reduction)
 - \$18,148 will remain as a Tax Deduction

During the first year of the Program, the Applicant in the example would be eligible for a tax credit of up to \$4,537 if not limited by tax liability. The Applicant would be able to file a revised W-4 withholding form taking into consideration the anticipated tax credit and have approximately \$378 per month in additional disposable income in the first year.

In the example, 100% of the mortgage interest paid is \$22,685 so 20% of the mortgage interest paid is \$4,537. Because the credit rate is 20%, the amount that may be claimed as a credit there is no annual maximum tax credit cap. According to IRS instructions on Form 8396, the amount of allowable mortgage interest deduction on Schedule A is determined by reducing the amount on Line 3 of Form 8396 (\$4,537). So the total mortgage interest paid in the first 12 months was \$22,685, subtract \$4,537 and the remaining \$18,148 may continue to be used as a deduction.

The tax credit amount may be used as a tax credit after all other deductions and credits have been applied and to the extent there is tax liability. If not all of the tax credit can be used because there is not enough tax liability, it may be carried forward for up to three years. However, it cannot be added to the allowable mortgage interest deduction.

Borrowers who receive an MCC and who continue to own and occupy the financed home will be eligible for a tax credit each year for the term of the loan.

The amount of the credit actually claimed on the MCC holder's federal income tax return cannot exceed the amount of federal income taxes due after other credits and deductions have been taken into account.

A purchaser of a new or existing single family home may apply for a MCC through any participating mortgage lender at the time he or she applies for a mortgage from the lender. A MCC cannot be issued to a homebuyer who is refinancing an existing mortgage or in connection with a mortgage from a relative. Also, an MCC cannot be used in connection with a bond program.

It's important to note that all or a portion of the MCC related tax credit may be subject to recapture if the Residence is sold within the first full nine years of purchase. This tax credit recapture is further explained in the Notice of Potential Recapture Tax and in the Recapture Tax brochure provided to an applicant.

It is important that borrowers understand the MCC and consider getting more information from their tax professional or the IRS.

What is the lender involvement?

Simply follow the guidelines for the first mortgage.

The Lender is responsible for filing a form with the IRS in each year in which they originate loans for which MCCs are issued, and for keeping certain records regarding the MCCs. For participating lenders, the annual form will be forwarded via email by the Program Administrator for execution and filing by the Lender.

MCC Homebuyer Benefit

The MCC can reduce the amount of federal income taxes; however, the tax benefit cannot exceed the amount of federal taxes owed for the year after other credits and deductions have been taken. But unused credit may be carried forward for up to three years.

Borrowers will have to adjust federal income tax withholding in order to receive the MCC benefit on a monthly basis. This adjustment is accomplished by the borrower speaking to their payroll department at their place of work. By reducing monthly withholding, they will have more disposable (after tax) income with which to make mortgage payments. The benefit of the MCC program continues for the term of the mortgage as long as the holder of the MCC continues to own and occupy the home under the mortgage for which the MCC was issued.

What does the Homeowner have to do to claim the benefit with the IRS?

Each year the homeowner files Form 8396 with their federal income tax return. The form is available on the IRS website.

MCC Special Rules

Process the first mortgage following these guidelines. After closing, simply follow the compliance file checklists. There are separate checklists for the first mortgage and for the MCC.

The MCC and Final Recapture Notice will be issued by the Program Administrator via mail sent to the borrower at the property address once the compliance file is approved.

Each January, the Program Administrator will provide the Lender with the required IRS reporting form for each year in which the Lender originates loans with MCC's.

ABOUT THE MCC PROGRAM

Issuer: HFA of Manatee County

Program Administrator: eHousingPlus

The Program

Entitles the recipients to take an annual federal income tax credit. A tax credit represents a reduction of actual federal income taxes due. The holder of the MCC may use the credit each year the loan is outstanding as long as they continue to live in the home.

Allowable Loan Products

Lenders choose loans from their own rate sheets and underwrite their own loans.

Loans must be --

- FHA, VA, and conventional loans acceptable to Fannie and Freddie that are 30 year, fixed-rate market loans.
- No adjustable rate, balloon, interest only products are permitted. Stated income loans are not permitted.
- MCCs may not be issued for loans funded from a mortgage revenue bond program or for loans made by persons related to the buyer. No interest may be paid to a person related to a buyer.
- Cosigners are allowable in an FHA transaction when meeting the following conditions: (1) a cosignor cannot have any ownership interest in the property (they cannot be on the Deed) and (2) the cosigner cannot reside in the property being purchased. A cosigner will sign only the Note in the transaction. A cosigner's income is not considered for program purposes, tax returns are not required and cosigner's do not sign any program forms. For credit purposes, follow FHA guidelines.

Program Requirements

Three Year Requirement. Borrowers **and their spouses** must not have owned their principal residence for 3 years prior to closing of the loan for which the MCC will be issued (with exceptions for homes located in Targeted Areas and Veterans Exception loans). The past 3 years federal income tax transcripts for all borrowers and spouses are required.

Principal Residence. The home must be expected to become the principal residence of the Borrower within 60 days following closing. The MCC will be effective only as long as the home remains the Borrower's principal residence along with the original mortgage issued in conjunction with the MCC.

Income and Purchase Price Limits. Household income and the purchase price/sales price of the home are limited.

Qualified Property. The home must be located in Duval County and may be a one to four unit, single family home. Borrower must occupy one of the units.

New Loans. The loan must be made to acquire a home and may not be used to refinance a home or pay off an existing home/mortgage.

MCC PROGRAM REQUIREMENTS

Eligible area: Manatee County, FL

Regardless of the first mortgage, all loans with MCC's have the following requirements

- Buyers and spouses must be first-time buyers
- Buyers and spouses must be able to permanently reside in the US.
- Work visas, student visas, any temporary visas do not qualify.

Veterans Exception

Qualified Veterans do not have to be first-time buyers. For the Veterans Exception, "veteran" is defined as "a person who served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable." The Veteran cannot have previously obtained a loan financed by single family mortgage revenue bonds utilizing the veteran exception to the first-time homebuyer requirement set forth in Section 416 of the Tax Relief and Health Care Act of 2006. Borrower must provide true and correct copies of discharge or release papers, which demonstrate that such discharge or release was other than dishonorable.

Targeted Areas

Identified as Qualified Census Tracts and Areas of Chronic Economic Distress (if any) which are listed below, a borrower purchasing in home in a targeted area census tract is not required to be a first-time buyer. [Click on this link to look-up the property address](#). Then compare the tract tract to the allowable targeted area census tracts listed below. If you find a match, the property is located in a targeted area. When reserving funds, choose from the TARGETED AREA rate/offering. Per Rev. Proc. 2024-08, the following census tracts constitute the Targeted Areas for this program: 0001.05, 0001.06, 0002.03, 0003.13, 0003.14, 0007.04, 0008.11

HOMEBUYER EDUCATION

All buyers and spouse (including a non-purchasing spouse) must take a homebuyer education course from a HUD Certified Housing Counseling Agency. The class may be in-person or online. The HFA of Manatee County prefers that education be taken as early in the homebuyer process as possible to maximize the benefit to the borrowers. Borrowers who have owned homes in the last three years are exempt from the homebuyer education classes. All other Borrowers who have not been homeowners in the last three years are not exempt even if purchasing in targeted areas or using the Veteran’s Exception. Certificates of completion are acceptable for 2 years from the date of completion.

USE **PAYMENT CENTRAL** to determine any loan that may be pending fees, unidentified payments, files pending payment and short payments.

LOANS PENDING FEES lists Compliance Files that have been uploaded successfully, but whose fee payment is still pending. Lenders can monitor this area to ensure their fees have been delivered in a timely manner.

PAID LOAN FILES lists compliance file that have been paid.

SHORT PAYMENTS If an incomplete payment is submitted, it will be displayed indicating the amount paid and the correct fee amount.

CLEAR A DEFICIENT COMPLIANCE FILE

Calculate “Base Pay from an Employer”

Regular Hours/Pay

1. Determine frequency of income - weekly, bi-weekly, semi-monthly, etc.
2. Identify documentation needed to support payment frequency and calculation.
3. Apply Calculation - *(Base Wage x Hours Worked in a Pay Period) x (# of Pay Periods Per Year)*
4. This should approximate the annualized YTD on VOE or paystubs. If not, check for additional pay, such as overtime, bonus, shift differential, etc. (Employers don't always break this out on the VOE).
5. See additional guidance on calculating base pay from an employer.

Hourly pay	Bi-weekly pay	Semi-Monthly pay
Multiply the pay per hour by the number of hours worked per week. Multiply total by 52 weeks a year.	Multiply the bi-weekly pay by 26.	Multiply the semi-monthly pay by 24.
<i>Example:</i> 1. \$15 per hour x 40 hours a week = \$600 2. \$600 x 52 weeks a year = \$31,200 3. \$31,200 / 12 = \$2,600 gross monthly base pay	<i>Example:</i> 1. \$1,200 every two weeks x 26 pay periods a year = \$31,200 2. \$31,200 / 12 months = \$2,600 gross monthly base pay	<i>Example</i> 1. \$1,300 semi-monthly pay x 24 pay periods a year = \$31,200 2. \$31,200 / 12 months = \$2,600 gross monthly base pay

Irregular Hours/Pay

1. Annualize YTD Earnings total.
2. Average prior year’s earnings total, if available, (or provide documentation and explanation to support not using the prior year’s earnings.) Divide the resulting number by the number of months and days worked, and then multiply that number by 12 months to get total average pay from an employer.
3. See additional guidance on calculating base pay from an employer.

Calculate “Additional Pay from an Employer”:

1. In the Earnings section of paystub or VOE, look for additional income earned that is not included in **base**. (Sick, vacation, holiday, etc. is generally included in **base**.)
2. Add up all additional income that is included in the YTD Earnings Total and not part of **base**.
3. Average prior year’s earnings total, if available, (or provide documentation and explanation to support not using the prior year’s earnings.). Divide the resulting number by the number of months and days worked, and then multiply that number by 12 months to get an average of **additional pay from an employer**.
4. See additional guidance on calculating additional pay from an employer.
